(Masai Mara offers an absolutely unique variety of animals. The reason is that this hilly region is both humid and fertile, and is crossed by the Mara and Talek rivers, full of crocodiles and hippos. The abundance of water and excellent availability of food are the reasons why the Masai Mara, which in fact is a continuation of the Tanzanian Serengeti National Park, has the greatest population of wild animals in the whole of Africa. There is a particularly dramatic "spectacle" from July to October, the annual migration of huge herds of Gnus and zebras. Predators such as Hyenas, Jackals, Leopards and Lions of course, closely follow these herds. Gigantic herds of over 200 buffaloes can also be observed.
